

A woman with long blonde hair, wearing a tactical vest and a mask, is kneeling in a green-tinted environment. She is holding a handgun in her right hand, aiming it forward. The background shows a car and some equipment. The overall scene is dimly lit with a strong green color cast.

KINGMAN TRAINING

11mm PAINTBALL MARKER (.43 Cal.)

2009 CATALOG

ARTHUR CHANG
FOUNDER & CEO

Dear Action Sports Enthusiasts,

We at Kingman Group are proud to introduce these all new Kingman Training 11mm paintball markers and accessory line. After more than 3 years working with dozens of top engineers, technicians and designers we have created a highly anticipated 11mm paintball marker (.43 Cal.) which will prove to be "The Next Big Thing" in action sports.

It is our mission to provide an innovative product which offers a new style of paintball, training exercise and simulated environment play. We have reduced the size of the standard paintball marker, air source system and paintballs into this all new hand-held 11mm paintball marker. The Kingman Training paintball marker operates on disposable 12g CO2 cartridges, special formula 11mm (.43 Cal.) paintballs, with a magazine style ammunition clip.

Feel the adrenaline as you enjoy this new product in easily accessible environments from the backyard to a warehouse... all while increasing your tactical shooting skills. Experience simulated play like never before with the all new Kingman Training 11mm paintball product line.

Please enjoy our first edition of the Kingman Training Catalog, and Play Safe!

Are you ready to "Make The Move"?

Sincerely,

Arthur Chang

Please make sure the environment and facility is legal and safe to play paintball.
User must wear EYES/FACE/EARS protection specifically designed for paintball and read Kingman Training Marker User Manual before play.

WHAT IS KINGMAN TRAINING?

Kingman Training applies the latest breakthrough patented “RSV” (Reversal Striker Valve) system into this new life-sized marker. The KT marker gives a true simulated weight and feel, comparable to a real hand pistol. The marker uses 11mm paintballs powered by a 12 gram CO2 cartridge. This new 11mm paintball size is between a 6mm BB and 17mm paintball (.68 Cal.). Each “Magazine” holds 9 paintballs and shoots up to 250 feet per second. Each 12 gram CO2 cartridge can shoot up to 80 paintballs, giving the KT Marker unrivaled air efficiency.

The KT marker will provide flawless performance, with increased accuracy and distance. This innovative “RSV” (Reversal Striker Valve) system delivers an effective paintball impact on targets while virtually eliminating all paintball breaks inside the marker. The KT marker is perfect for recreational simulated environments and Military, Security or S.W.A.T. training practice.

Less - Pain

MORE FUN

You can literally play anywhere.

8 QUICK STEPS TO START AND PLAY

1) Insert the barrel blocking device and make sure the safety button is ON. (PUSH SAFE)

2) Insert 12 gram CO2 cartridge.

3) Load 9 paintballs into the magazine.

4) Insert the magazine into the marker handle.

5) Cock the marker.

6) Remove barrel blocking device.

7) Release safety button.

8) Ready to PLAY / FIRE.

IMPORTANT: Please read the Safety and Operation Guidelines in your user manual before you play.

ERASER™

JET BLACK
#KT00200

TITANIUM GREY
#KT00201

RACING GREEN
#KT00202

Technical Specifications:

All Aluminum Construction

L: 9" W: 1.5" H: 6.75"

Dry Weight: 2.4 lbs.

Effective Range: Approximately 120 feet

Accuracy Range: Up to 60 feet

Joules: 1.6-2.0

Air Efficiency: Shoot up to 80 paintballs per 12g CO2 Cartridge

MARKER FEATURES:

Reversal Striker Valve System (Patent 7,478,632) - Magazine Style Loading System - All Aluminum Construction - Velocity Range: 200-250 fps - Joules: 1.6-2.0 - CO2 Cartridge Knob with Assist Lever - External Velocity Adjuster - Simulated Cocking Action - Durable Anodized Fine Matte Finish - High Visibility Hard Sights - Quick Release Striker Bolt - Slide Cocking System - Ergonomically Designed Aluminum Trigger Frame - Rubber Grip Panel

INCLUDED WITH THE KT ERASER™ MARKER: Two 12g CO2 cartridges, 100 Round 11mm Paintballs, Sgueuegee and BBD

CHASER™
