THERMAL PROTECTION

For protection against extreme heat and flame, there's no substitute for NOMEX® by Dupont™.

NOMEX® doesn't burn, melt or drip, and it puts a protective barrier between the danger and the wearer. NOMEX® is also lightweight, breathable and comfortable to wear for prolonged periods.

All of these thermal protection garments are created using an advanced, soft-knit NOMEX® fabric that's stretchy, durable, easy-to-clean and soft to the touch. They're also constructed using NOMEX® thread, to ensure they stay together when protection is needed the most. Zippered garments feature NOMEX® taped brass and Vision® zippers from YKK® for additional protection.
